Brown Butter Cakes

Brown Butter Cakes has an exclusive partnership with Bijou Event Decorating allowing us to provide some of the most breathtaking and more importantly delicious cakes for your event.

Brown Butter Cakes

Average Wedding Cake Cost

Price varies based on complexity, size and design between \$3.50 and \$8 per slice.

Color and Design

The price per slice for a wedding cake may increase if the customer requests a special color that the baker must custom-create for the frosting or cake batter. More exotic colors, like edible gold color or edible gold leaf, or more intricate cake designs and color schemes, such as multicolored tiers or ombre frosting, will also increase the cost per slice.

Tiered Wedding Cakes

Tall cakes are in. They're elegant and creative and offer a snazzy twist on tradition. In 2016 and 2017, 80 percent of couples wanted a layer cake at their wedding and 57 percent wanted at least three layers. The term "double barrel cakes" to describe two cakes that are stacked to look like a single elongated layer when covered in fondant or decorative cake icing. Tall cakes and additional layers are more complex to create, so the price may increase to reflect the increase in size.

Ingredients and Cake Flavor

Almost any flavor combination you can dream up for your wedding day or event can be created. Wedding cakes with multiple layers that are each a different flavor, or with multiple filling options, will typically cost more per slice than a cake with a simpler flavor combination or with standard flavors like vanilla, chocolate or red velvet. Cakes with organic, gluten-free or exotic ingredients will also generally cost more per slice than standard cakes.

Wedding Cake Icing and Frosting

Buttercream and fondant are the two most common wedding cake frostings. Fondant usually needs to be poured over a layer of buttercream, so the baker is making and applying two layers of frosting when using fondant. Here are some frosting price examples:

- \$4.00+ per slice for wedding cake with buttercream frosting
- \$6+ per slice for wedding cake with fondant frosting

Cake Delivery Fees

Having the cake delivered to the reception site is another factor in the total cost of a wedding cake. Brown Butter Cakes charges \$50-\$195 for delivery. Delivery in expensive locations like District of Columbia, Virginia may be considerably more than in more suburban areas.

Cake delivery and setup takes coordination. Complex cakes are often assembled after delivery, so verify with the venue that there's a set space for cake assembly. Make sure air conditioning settings are adequate for a cake to stand on display for several hours. Determine whether the cake will need to be refrigerated between delivery and setup; for example, ice cream filling or super soft cream cheese will melt in heat. Be sure to connect your wedding coordinator or day-of point person with your baker so they can plan.

Equipment Rentals

Renting cake toppers or stands may increase your overall cost.

Brown Butter Cakes

We create luxurious, contemporary wedding and celebration cakes.
